South America.

There has been lying unopened upon our table, for perhaps a fortnight past, a formidable roll of South American journals, the examination of which has given employment to an hour that would otherwise have been one of leisure. The capital of Peru proves to be represented in this collection by two respectably conducted and tolerably well printed newspapers, which, we perceive, sustain in that republic the characters of goverament and opposition organs. El Peruano has an air of quiet and dignified indifference to most mundane affairs, beside government notices and movements of men in authority, which assimilate its character to a well known journal at Washington. El Correo is evidently out of favor with the administration which the Peruvian loves, and generally opposes all that the official character of the other would probably induce it to support, if the public advertisements left it space.

We find that on the 12th or 13th of June, an extra session of Congress was to commence, which had been called to take into consideration certain exigencies of the republic, and the expediency of this measure had been made the occasion of warm censure against the government, on the part of the party out of power. Each number of the Courier, as exponent of their feelings, teems with assaults upon the administration on its course in the matter. The Peruvian replies gently and calmly to these impassioned outbreaks, about once a week. From the accusations preferred by one, and the defence submitted by the other, we conclude that on the 21st of February. 1849, there was one of those attempts at a revolution which are so much matters of course in Hispano-American republics; that it was suppressed, and that the leader in this disturbance, and his principal abettor, had been seized, and were held in confinement in different parts of the country. The treatment of those persons is a prominent count in the long indictment which the Courier and its party had preferred against the national authorities.

One General Iguain, who seems to have been a leader in the conspiracy or insurrection, was about to be tried by a council of war. He was issuing through the Courier very long documents in defence of his actions and motives. According to that journal the President and his party were buying up witnesses, with whom to convict Iguain. About the end of May another alarm was excited; the tradespeople of Lima and Callao shut up their shops; the military was ordered hither and thither; a great number of additional armed policemen were appointed in both cities, and other measures taken for the apparent purpose of guarding against a revolutionary attempt. The Courier promptly denounces the whole of the proceedins as parts of a flagitious scheme for exciting the public mind against the political prisoners, to deprive them of the chance of a fair trial, and to influence the action of Congress; and in the course of his lament over the miseries of his country, the writer becomes quite hopeless, and exclaims "Alas, poor Peru, are thy sufferings never to be mitigated till tyrants have overthrown the constitution and the blood of the most patriotic of thy sons has reddened thy soil?"

It is somewhat surprising to observe the amount and the minuteness of the information concerning governmental proceedings, which both papers contain; for we perceive that the official journal gives to the public, almost every day, detailed reports, from prefects and intendants of provinces, cities and districts; of vaccinnations, marriages and deaths; of the quantity and expense of work done on roads, drains, public buildings, and in mines; of passports given; of the names, arrivals, and departure of travellers; of the duties collected, and by whom and on what paid; and of many other concerns not necessary to be enumerated. The government of Peru must be truly a paternal one. It has provided that the subjects of its care shall neither be born nor married, nor move, nor die without its sanction or its recognition. One advantage, however, will probably result from the rigor of its system. The government will be the possessor of a body of statistics, of grea extent and accuracy, which, for certain purposes, will be of value.

We extract for the entertainment of our readers, a few items from the Courier

June 8th, Don Manuel Mirabel was fined four dollars for not having reported himself at the headquarters of the police, within twenty-four hours after his entrance into the city.

The Intendant of Police takes occasion to renew his notice to the citizens of Lima, that the 9th of June is the day appointed for the procession of the host, and it is accordingly forbidden that carriages or horsemen shall appear in the great square, or in any of the streets through which the procession will pass.

Next follows a list of passports issued to travellers, with the names and destinations of the recipients; also a list of those who presented themselves with passports.

Then comes an order in large capitals, from the Captain of the port of Callao, directing the Intendant to give burial to the body of one poor Prudencio Corbero, a mariner who died suddenly, while attempting to roll a barrel of flour from an English brig.

May 24th, the English corvette Champion, and the French frigate Pursuivant, fired salutes in celebration of the thirteenth birthday of Queen Victoria. The castle of Independence returned the salutes, which were repeated at intervals from sunrise to sunset.

On the 12th of June, the French Charge d'Affaires near the Peruvian government sailed for France on leave of absence. *El Correo* and *El Peruano*, though agreeing in nothing else, unite in wishing Mr. Lemoine a happy voyage, and take leave of him, in the name of the government and the whole diplomatic corps, and the community of Lima, in terms of grave and dignified courtesy, which attest that the influence of old Castillian manners, among the educated classes of Peruvians, has long survived the political supremacy of Spain The *Courier* says that the society of Lima will greatly regret the absence of Monsieur and Madame Lemoine, the latter of whom has occupied a high place among the ladies of the most elevated circle in the capital [*entre los Senoras Limenas de gran-tono.*] Sr. Codecido gave a grand ball in honor of this lady, on the Saturday-night preceding her departure, which was attended by the first personages of the city, and distinguished and beautiful Senoras, who availed themselves of the opportunity to testify their profound regret upon the loss they were about to sustain. It is mentioned that the ball began at nine of the evening and terminated at six on Sunday morning. The editor admits that he was not present in the flesh at this festivity, but states upon the authority of an "it is said," that the gentlemen of the French and English men-of-war became particularly convivial towards the close of the proceedings.

It appears that Bolivia was in abad. way. The President was convoking Congress, and pathetically appealing to tho patriotic vigilance of prefects and local governors, and marching of troops to this point and that; and with all his activity it seemed quite impossible for him to keep people from getting up demonstrations against the public peace and quiet. No sooner had he put down a *pronunciamento* in one place, than somebody raised a *grito* in another; and, altogether, the state of things is so bad and unsettled, that we must believe that Sancho Panza led as comfortable a life, while Prince of Barritaria, as the President of Bolivia.

Among these specimens of South American journalism are many copies of *El Panameno*, a little sheet about twelve inches long and eight broad, published at Panama, in New Grenada. It contains some useful information respecting the legislation of that country, and the commercial prospects of Panama, for which to-day we have no room.—*N. Y, Exress.*

The State of California.

It is our intention to lay before our readers from time to time, such information of a geographical and statistical character as may be placed within our reach, respecting the State of California; and as the basis of such a view, we extract from the Constitution the article in which the boundaries of the State are prescribed. The article is as follows:

ARTICLE XII.

Boundary.—The boundary of the State of California shall be as follows:

Commencing at the point of intersection of the 42d degree of north latitude with the 120th degree of longitude west from Greenwich, and running south on the line of said 120th degree of west longitude until it intersects the 39th degree of north latitude; thence running in a straight line in a southeasterly direction to the River Colorado, at a point where it intersects the 35th degree of north latitude; thence down the middle of the channel of said river, to the boundary line between the United States and Mexico, as established by the treaty of May 30th 1848; thence running west and along said boundary line to the Pacific Ocean, and extending therein three English miles; thence running in a northwesterly direction, and following the direction of the Pacific Coast to the 42d degree of north latitude, thence on the line of said 42d degree of north latitude to the place of beginning. Also, all the islands, harbors and bays, along and adjacent to the Pacific coast.

The State as thus bounded extend-

from north to south nearly ten degrees, from 42° to about 32° north latitude, being in round numbers 600 miles in length. Its average breadth is about five degrees, or in round numbers, 300 miles. This would give an area of not far from 180,000 square miles, making the State about three times as large as Virginia or Missouri. The Pacific seacoast of the State, ranging as it does in a southeasterly direction from latitude 42° nearly to latitude 32°, has probably an extent, including its indentations, (excepting the Bay of San Francisco,) of not far from 1200 miles. Besides the great valley of the Sacramento and San Joaquin—one continuous valley in fact, of near 500 miles in length, by about 100 in breadth, though usually discriminated by the names of the two principal rivers that traverse it, the one from the north and the other from the south—besides this valley, the State includes the whole western slope of the Sierra Nevada, from latitude 42° to latitude 35°; and below the latter parallel, it takes in the whole region lying between the Colorado (from the point where it turns to the southward near the 35th parallel) and the Pacific Ocean. Such is the extent of territory with which California is about to present herself before the Federal Government for admission into the Union.

It has been usual for Congress, when New States have been admitted into the Union to fix their boundaries in the Act providing for their organization and admission. This usage was waived, however, if we remember rightly, in the case of Kentucky, and it was also waived in the case of Texas, except that in the Joint Resolution for the admission of Texas as a State, the Federal Government expressly reserved to itself the power to adjust the line of boundary *between Mexico and Texas*. In all other respects, Texas certainly, and Kentucky we believe, were admitted with their boundaries previously settled by the enactment of their people. As by the treaty with Mexico, the whole of New Mexico became American territory, the question of the boundary line between New Mexico and Texas, though settled by a fundamental ordinance of the people of Texas, is, in the judgment of many eminent statesmen, an open one, which awaits its adjustment either by a law of Congress, or a decision of the Supreme Court of the United States. The only power expressly granted to Congress by the Constitution, in relation to the boundary of a State, is contained in the 3d Section of Article IV of that instrument, and is as follows:

SECTION 3. New States may be admitted by the Congress into this Union; but no new State shall be formed or erected within the Jurisdiction of any other State; nor any State be formed by the Junction of two or more States, or Parts of States, without the Consent of the Legislatures of the States concerned as well as of the Congress.

The Congress shall have Power to dispose of and make all needful Rules and Regulations respecting the Territory or other Property belonging to the United States; and nothing in this Constitution shall be so construed as to Prejudice any Claims of the United States, or of any particular State.

Under the circumstances in which California applies for admission into the Union, and especially in view of the exciting agitation of the Slavery question in Congress, and of the settlement of that question here by our State Constitution, it is by no means impossible that the existing *boundary* of the State of California may form a prominent feature in the approaching discussion by Congress of the claim of California for immediate admission as a State. It has been surmised indeed in some quarters, that an attempt may be made in Congress *to divide* the State prior to its admission. Such an attempt, if made, will doubtless fail. It will at all events be met wherever it may originate, by the unanimous and indignant reprobation of the People of California.

LUMBER has gone up within a few days to 400 and 450 dollars per thousand, and as there is but a very small stock on hand, it will probably advance still higher.

SEIZURE.—The British Barque Collooney, Livingston, from Oregon via Vancouver's Island, has been seized by Col. Collier, the collector, for a violation of the revenue laws in bringing a cargo from one American Port to another. We also learn that a vessel from Valparaiso has been forfeited for bringing to this port, brandy in packages of less than 15 gallons, as prescribed by law.

POSTPONED.—The sale of China Goods at the store of Mellus, Howard & Co., until Thursday (to-day) at 11 o'clock.

NO SMALL POTATOES.—We were shown some potatoes yesterday, in the Fulton Market, that were raised in Monterey, five of which weighed *four pounds*.

ROWE'S CIRCUS.—We are happy to learn that Mr. Foley has been re-engaged at this establishment, and made his appearance again on Monday night before a crowded house, which greeted him with loud applause It being for his benefit the New York Serenaders kindly volunteered their services on the occasion. The nightly attendance at the Circus continues undiminished,

COMING DOWN—flour and pork.

The *Tepic*, which has arrived in Liverpool from Valparaiso has brought gold from San Francisco, California, to the amount of £40,000 or $50,000 sterling.

CAUTION.—Whereas, one J. A. Sutter has published a notice, in which he claims title to the land on the east bank of the Sacramento river, between the Feather river and the American Fork, I hereby notify the public that I am the only legal owner of the said land, under a warranty deed from J. A. Sutter himself, dated Aug. 10, 1843; and I therefore caution all persons that no legal title can be acquired to the same, or to any portion thereof, except through me. Justice to myself requires me to add that I shall hold the said J. A. Sutter legally responsible, both for the libel on my character, and the slander of my title, which his notice contains; and that if its publication is the result of a conspiracy to defraud me of my property, I shall take care that the offenders be brought to justice as soon as a criminal court before which they can be tried, is legally organized in this territory.

Any person desiring to satisfy himself of my title to the above land, is invited to call on S. Brannan & Co., at Sacramento City, or on the undersigned, at the counting room of E. Mickle & Co., Clay street wharf, san Francisco. HIRAM GRIMES.

NOTICE TO SQUATTERS.—The undersigned begs leave to caution the public in general against squatting upon his farms or ranchos, as follows: One farm on the river Sacramento, extending to the mouth of Feather river and American Fork, known as *Rancho del Passo.*

Also, two ranchos on the San Joaquin river; one of 3 leagues, granted to Don Hernandez by Gov. Micheltoreno, and adjoining the same; being one undivided half of 8 leagues granted by Gov. Micheltoreno to Balentine Heguira, near the Pueblo pass.

All persons are hereby notified to abstain from taking possession of any portion thereof, at the peril of being proceeded against according to law.

LOTS FOR SALE *in the city of south San Francisco*, offering the greatest inducements to persons recently arrived, who are desirous of locating themselves with superior advantages. The city of south san Francisco is situated two miles south of the city of san Francisco, immediately on the bay, having every advantage for the shipping, and is supplied with wholesome water in great abundance. A stream of sufficient quantity to supply both cities and all the shipping that ever may lay in their harbors, forms the northern boundaries of this place—is quite accessible and is about being conducted into reservoirs for that purpose. The harbor is more securely protected from the winds than the harbor of san Francisco, and ships of the heaviest burthen may at all times of the tide lay within a boat's length of the land at many points, and quite close along the whole front of the city, affording the best facilities to discharge cargo. The soil is free of dust, and is of a rich clay nature. There are extensive stone quarries, and springs of pure running water are in many places. The surrounding scenery is highly picturesque, and a more pleasant place for residences, or a more convenient place for business is not to be found on the bay. The only good road from the city of san Francisco to the Pueblo of san Jose passes through south san Francisco, crossing the mouth of Mission creek and the mouth of the stream of fresh water already alluded to On this road you travel along a beautiful valley of firm grass land to the puertesuelo, a distance of less than two miles. Persons desirous of purchasing lots, which will wholly equal in value those of the City of San Francisco and provide for themselves residences on moderate and easy terms can do so by calling at the office of the undersigned in Clay st., where full particulars will be given them. HUNTER & BROTHER,
Agent for the Proprietors.

A good House with everything necessary for the accommodation of visitors is now established at south San Francisco.

RARE CHANCE for investment of capital for business men. Business calling the subscriber to the United States, he offers the following most desirable property for sale.

The Buena Vista Rancho, situated on Jackson creek between Dry creek and the Mockelmna river, on the main road leading from Sutter and Sacramento river, to the Mockelmna, Stanislaus, Stockton, and the San Joaquin. On the ranch there is two large new corrals, large log buildings, three hundred head of beef cattle, three wagons and teams, horses, pack mules, saddles, etc. A large lot of provisions, mining goods, and Indian trade. This rancho is one of the most important trading posts in the mining district; the ranch is well supplied with water and grass; several hundred head of horses are pastured on the place, belonging to the miners, and the trade with miners and the Indians is very extensive; the roads from Sutter, Sacramento city and Stockton, are very superior. The above offers a rare opportunity for business men to invest capital; this trading post has been established over twelve months, and the most central post in the mines. For further particulars apply to T. B. Winston, Esq., san Francisco; Geo. McKinstrey, Jr. Esq. town of Sutter, or W. H. DIGGES, on the ranch.

Buena Vista, Oct. 30, '49. xxix cA

MERCHANT'S EXCHANGE, *San Francisco.* The subscriber has completed a large Hall in the second story of the building recently erected by him, on Washington street, and proposes to open it on the 20th inst. for the use of the Merchants of san Francisco, and business men generally.

Newspapers from all parts of the world will be kept on file, and the shipping news collected daily. No effort or expense will be spared to gather such mercantile information and news of the day, as the present wants of the business community demand.

Half yearly subscriptions received from residents.

Transient parties can subscribe by the week. Persons from the mines visiting san Francisco, may thus have access to the news from all quarters, and in addition, accommodations for writing letters will be furnished.

Letter bags for the various mails will be kept at the office of the Exchange.

TOWN OF BOSTON.—Lots at the town of Boston, beautifully situated at the junction of the American Fork and Sacramento rivers, are now offered for sale. The town of Boston is only a few hundred yards above Sutter's Embarcadero, on the north side of the American Fork, and in the immediate vicinity of the gold mines, and from its situation possesses superior advantages for business purposes. The land which forms the site of the town is twelve feet above the highest water mark, and the river is twenty-three feet in depth at the banks. It is believed that no place offers greater inducements for investments than this town, as in addition to the above mentioned advantages it has a fine climate, good soil, with an abundance of excellent water, and is free from inundation at all seasons. The town has been surveyed by Mr. J. Halls, and laid out in a convenient manner, and a plan of it can be seen, and any other information relating to it obtained on application to HIRAM GRIMES,

NEW YORK OF THE PACIFIC.—The City of New York, of the Pacific, situated at the head of ship navigation upon the bay of Suisun at its junction with the rivers Sacramento and San Joaquin, has been most accurately surveyed by Captain R. P. Hammond, U. S. A., and laid out in the most beautiful and convenient manner, and maps have been preparsd by E. H. Rowe, Esq., engineer and land surveyor, pointing out clearly each and every lot within the surveyed limits of the city, and the proprietors now offer them for sale to the public. Along the entire water front of the city, a public street is laid out one hundred and fifty feet in width, beyond which no ground will ever be sold. and the proprietors therefore guarantee to the purchasers of all lots fronting on Water street, that no building shall ever be erected between their purchase and the water. There is no point along the entire water front of the city at which vessels of the largest class cannot lay within thirty feet of the bank of the river, and there are but few points where a large class of vessels cannot come immediately to the bank and discharge their cargoes, and at all points where this cannot be done, wharves will be built by the proprietors as soon as materials for building can be procured. The centre street of the city running North and South is one hundred feet in width, and all the other streets seventy-five feet; the lots are fifty feet front, by one hundred deep, and there is not a lot within the survey unfit for building purposes.

There are three public squares laid out within the survey, which will be given to the city, and the proceeds of the sales of all the lots fronting on the squares will be appropriated to the erection of public buildings. The titles to this property are perfect and complete in every particular.

There will be established immediately at the city a record office in charge of a competent official person authorized to take acknowledgements and record deeds, and where the original title deed to this property will be recorded, and where it is desired that all deeds for lots purchased should be immediately recorded.

The purchasers will be required to make improvements within a specified time.

The advantages of the location of this city over any other above San Francisco, are too well known to all who have either, passed up the river Sacramento or San Joaquin to require any comment from the proprietors; but to all persons who have not had the opportunity to examine the site, we say that there is not in all California a point combining so many advantages for business purposes, with the advantages of a fine, healthy climate, dry soil, free from inundation, at every point, throughout the year, a superior harbor for vessels of the largest class, and an abundant supply of pure water at all seasons. To these advantages, we will add that permanent arrangements have been made for two steamers to commence running in all the month of August daily from San Francisco to the new city; and also two steamers of very light draught of water with tow boats prepared to navigate the Sacramento and san Joaquin, and their tributaries, from New York, below which they will not come. For lots or any information connected with the city of New York of the Pacific, apply at the office of the proprietors in Portsmouth square, san Francisco, and at the city of New York.

G. McDOUGAL,

TOWN OF SUTTER.
(LATE SUTTERSVILLE.)

This town has has just been re-surveyed and laid out by Lt. J. W. Davidson, of the U. S. A., and lots therein are now offered for sale here, by the subscribers, and at the Town by George McDougald & Co. This town is beautifully situated upon the east bank of the Sacramento, within about two miles of Sutter's Fort, having a fine road leading therefromdirect to the mining region, and is some six miles nearer the mines by this road than any other embarcara point upon the river. A direct road is also being made on the opposite side of the river, which will, when completed, save 74 miles land travel to the mines. The locations upon the river banks for business purposes are never subject to overflow by the highest water known on the river, and the high ground back is the most desirable location for a residence of any point that can be selected upon the banks of the Sacramento.

TOWN OF SANTA CRUZ.

The survey of this Pueblo, one of the oldest in Californin, has recently been corrected and mapped by Lieut. Williamson, U. S. A. It is situated in the Bay of Monterey, and presents more advantages for an agreeable residence than any other in California, for it is well known that at no part of the whole country is the climate purer, water better, soil more fertile, and where so unlimited a supply of lumber and timber for building and fencing purposes can be procured at prices nearly as low as the United States. The town and planting grounds are laid out in lots of 50 varas square, a large number of which are now offered for sale at very moderate prices by the subscribers.

SAN FRANCISCO.

Some of the most desirable locations for private residences or business purposes in this town, can be purchased or leased of the subscribers.

Maps of the city of New York of the Pacific, the towns of Sutter, Santa Cruz, and san Francisco can be seen at the Land Office of the subscribers on Clay street, south side Portsmouth square.

"ASPINWALL STEAM TRANSPORTATION LINE."

THE steamer "Captain Sutter," the first of this Line, being now completed, will make her *first trip to Stockton* on Thursday, the 15th instant.

For speed and accommodations she is one of the most desirable boats upon the river, while her light draught of water and capacity for freight renders her, in every way, adapted to the route.

She will soon be followed by the other steamers of the same Line, viz:

"El Dorado,"
"Hartford,"
"Georgiana."

All of which, being constructed with special reference to their various routes, offer every facility to the traveller and shipper.

For all information, and for freight or passage, apply to James Blair, agent; office head of central wharf. xxxv tf

NOTICE—A person, who will leave in the steamer of 1st December, for New York, with the intention of remaining there for three or four weeks only, and then returning by first opportunity, in order to be in San Francisco by middle of March next, would be happy to take charge of any goods, or to execute any commissions, etc. He can give the most unquestionable references. For further information, address Warren & Burhans, box 400, Post Office. xxxvii n*

INSURANCE AND EXCHANGE. The subscribers have open policies at the Mercantile Mutual, Atlantic Mutual, Sun Mutual, and Astor Mutual Insurance offices, New York, which enable them to cover by insurance remittances of gold dust, &c., to the amount of $90,000 by any one steamer. Exchange on New York, in sums to suit purchasers, for sale on reasonable terms.

Independent Mail Company
OF THE UNITED STATES AND CALIFORNIA.

THE inefficiency of the government post office arrangements, so far as they relate to the transportation of the mails through this newly acquired territory, together with the unnecessary and vexatious delay that has repeatedly occurred at the Isthmus, in forwarding the regular mail matter to and from the United States, has suggested the establishment of an *INDEPENDENT MAIL COMPANY*, for the *certain*, *safe* and *rapid* transmission of letters and packages to the Atlantic cities and every part of the Union.

In order that the plans of the company may be successfully prosecuted, an agent will be dispatched, with every steamer, to the United States, and one, also, will accompany all mail matter entrusted to the company's care *from* the United States.

In addition to the above, depots have been established in all the principal mining districts of California, and agents will traverse those districts for the purpose of obtaining *orders* from the miners, authorising the company to receive, from the government post office at San Francisco, all letters, papers or packages directed to them, that are now remaining or may hereafter arrive at that office. These letters, papers or packages will be forwarded DAILY to their respective destination, through the company's regularly established post offices, either at *Sacramento City*, *Stockton* or *Pueblo de San Jose*;—from thence they will be sent, with the utmost dispatch, to the different depots at the mines, in order that those who have furnished the company with their names may be placed in early possession of all matter directed to them.

Packages of value, intended for the eastern cities, will be received at the offices of the company, insurance effected thereon, if required, receipts given therefor by the post master, and from thence they will be forwarded to the principal office of the company, at San Francisco, At this latter place they will be placed in the hands of the regularly appointed agent of the company, upon the sailing of every steamer, and reach the eastern cities without the possibility of detention at the Isthmus.

The incalculable advantages that will accrue to the miners especially, by these extensive arrangements, must be at once perceived, from the fact that the heavy expenses, often unnecessarily incurred, in journeying from the mines to San Francisco and back, frequently for letters alone, will be saved; and at Pueblo de San Jose, the seat of government, a daily communication will be obviously of great importance during the session of the legislature.

In view of the large outlay that has attended this enterprise, the company rely, with confidence, upon the liberal support of this community, and of the states generally.

The company beg leave to refer to the following distinguished individuals and business houses, viz:

"OAK HALL!"

WHEREAS, some ambitious person has opened a "seven by nine" shop, near the City Hotel, with the sign of "*Oak Hall*," we feel it a duty we owe to the public, to him with whom the name originated and to ourselves, to state that said shop is in *no way* connected with the *original* establishment, and that we are the *only House* in California that has any right to make use of the name of *Oak Hall*, which is as much the *property* of the proprietor of that establishment as is the *reputation* he has won. As a branch of that house, we shall, from this time, take its name, and hope to merit as liberal a share of patronage from the people of California as has been extended to the house by the inhabitants of the Atlantic states. THE HOSPITAL
OF SAN FRANCISCO.

W. H. STIVERS, M. D. Resident Physician.
Main entrance on the east or lower side of Stockton street, between Clay and Sacramento streets, south-west of and near the Post Office.

THIS establishment is composed of an extensive range of buildings recently erected, and formerly, in part, occupied for a Hospital by our fellow-citizen Dr. Melhado. Its arrangements are, in all respects, most commodious; on a scale, indeed, suited to the various and rapidly increasing wants of both citizens and strangers. The position is one of the best that could be chosen—elevated, healthy, and easy of access, with excellent water, and commanding a fine view of the bay. There is also attached to the premises an elegantly fitted up Bathing House, where cold, warm, hot and medicated baths may be had, at all hours. The Baths for the use of the public are entirely SEPARATE and DISTINCT from those devoted to patients

The Hospital of san Francisco is the FIRST, and, in fact, the ONLY Institution established on the Pacific coast, on a broad, liberal and sure foundation. It is a refuge for the sick—a home for the invalid, where comfortable quarters, good nursing, watchful medical treatment, and suitable diet will do all that human effort can do to alleviate suffering and restore to health.

The Terms are placed on the most moderate basis, being in truth, about one-third to one-sixth less than the expenses necessarily encountered by the sick, under any other arrangement.

TERMS.

1st class, one in a single room, neatly furnished, $16,00 per day.

STOCKTON FORWARDING, COMMISSION AND REAL ESTATE AGENCY.

The subscribers, under the firm and style of HEATH and EMORY, have completed their arrangements in the city of Stockton, and are now prepared, at their office and warehouse, at the corner of first and El Dorado sts., to freight to any part of the southern mines: comprising the Moquelemas, Angel's and Murphy's Camps, Wood's Creek, the Calaveras, Stanislaus, Tuoalome, Mercede, Mariposa and King's rivers. Teams and pack mules will start from their establishment every day for the above places.

The prices of freight, the time of starting, and all other matters of interest connected with the mines, or the facilities of getting to or from them, may be ascertained at their office. Goods and baggage will also be stored with great care, the subscribers having for that purpose erected a large, water-proof, plank-floored warehouse.

The subscribers also offer for sale 150 of the most valuable lots in the city, located in very desirable positions on both sides of the river. A map of the city may be seen at the office. RICH'D W. HEATH,
O. C. EMORY.
